

COSTS DOWN, PERFORMANCE UP?  
MEET THE NEW AMAREX N.

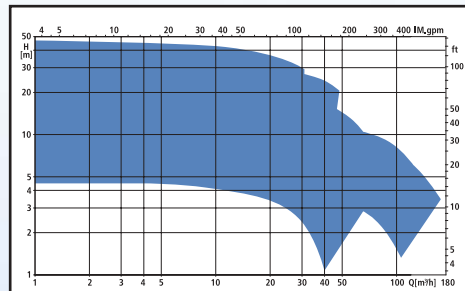

# Sit back and relax ...

... because our new Amarex N pumps are top of their league in economy, operating safety and reliability.

## Applications and technical data:

Amarex N pumps can be used for every kind of waste water – municipal, industrial and commercial. They are particularly suitable for pressure drainage, in combination with various types of tank.

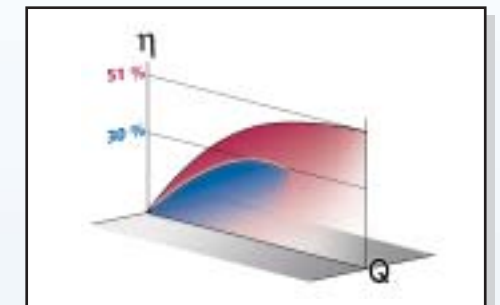

Pump sizes:	DN 50, 65, 80, 100
Max. flow rate:	155 m <sup>3</sup> /h
Max. head:	47 m
Max. temperature:	60 °C

And of course we also offer an ATEX-compliant version.

We took tried-and-tested KSB technology. And improved it all round. The result is major savings, now, and across the spectrum of life cycle costs (LCC). Amarex N – a true all-rounder capable of meeting all your requirements thanks to the large number of variants available.

## Efficiency increased by more than 50 %:

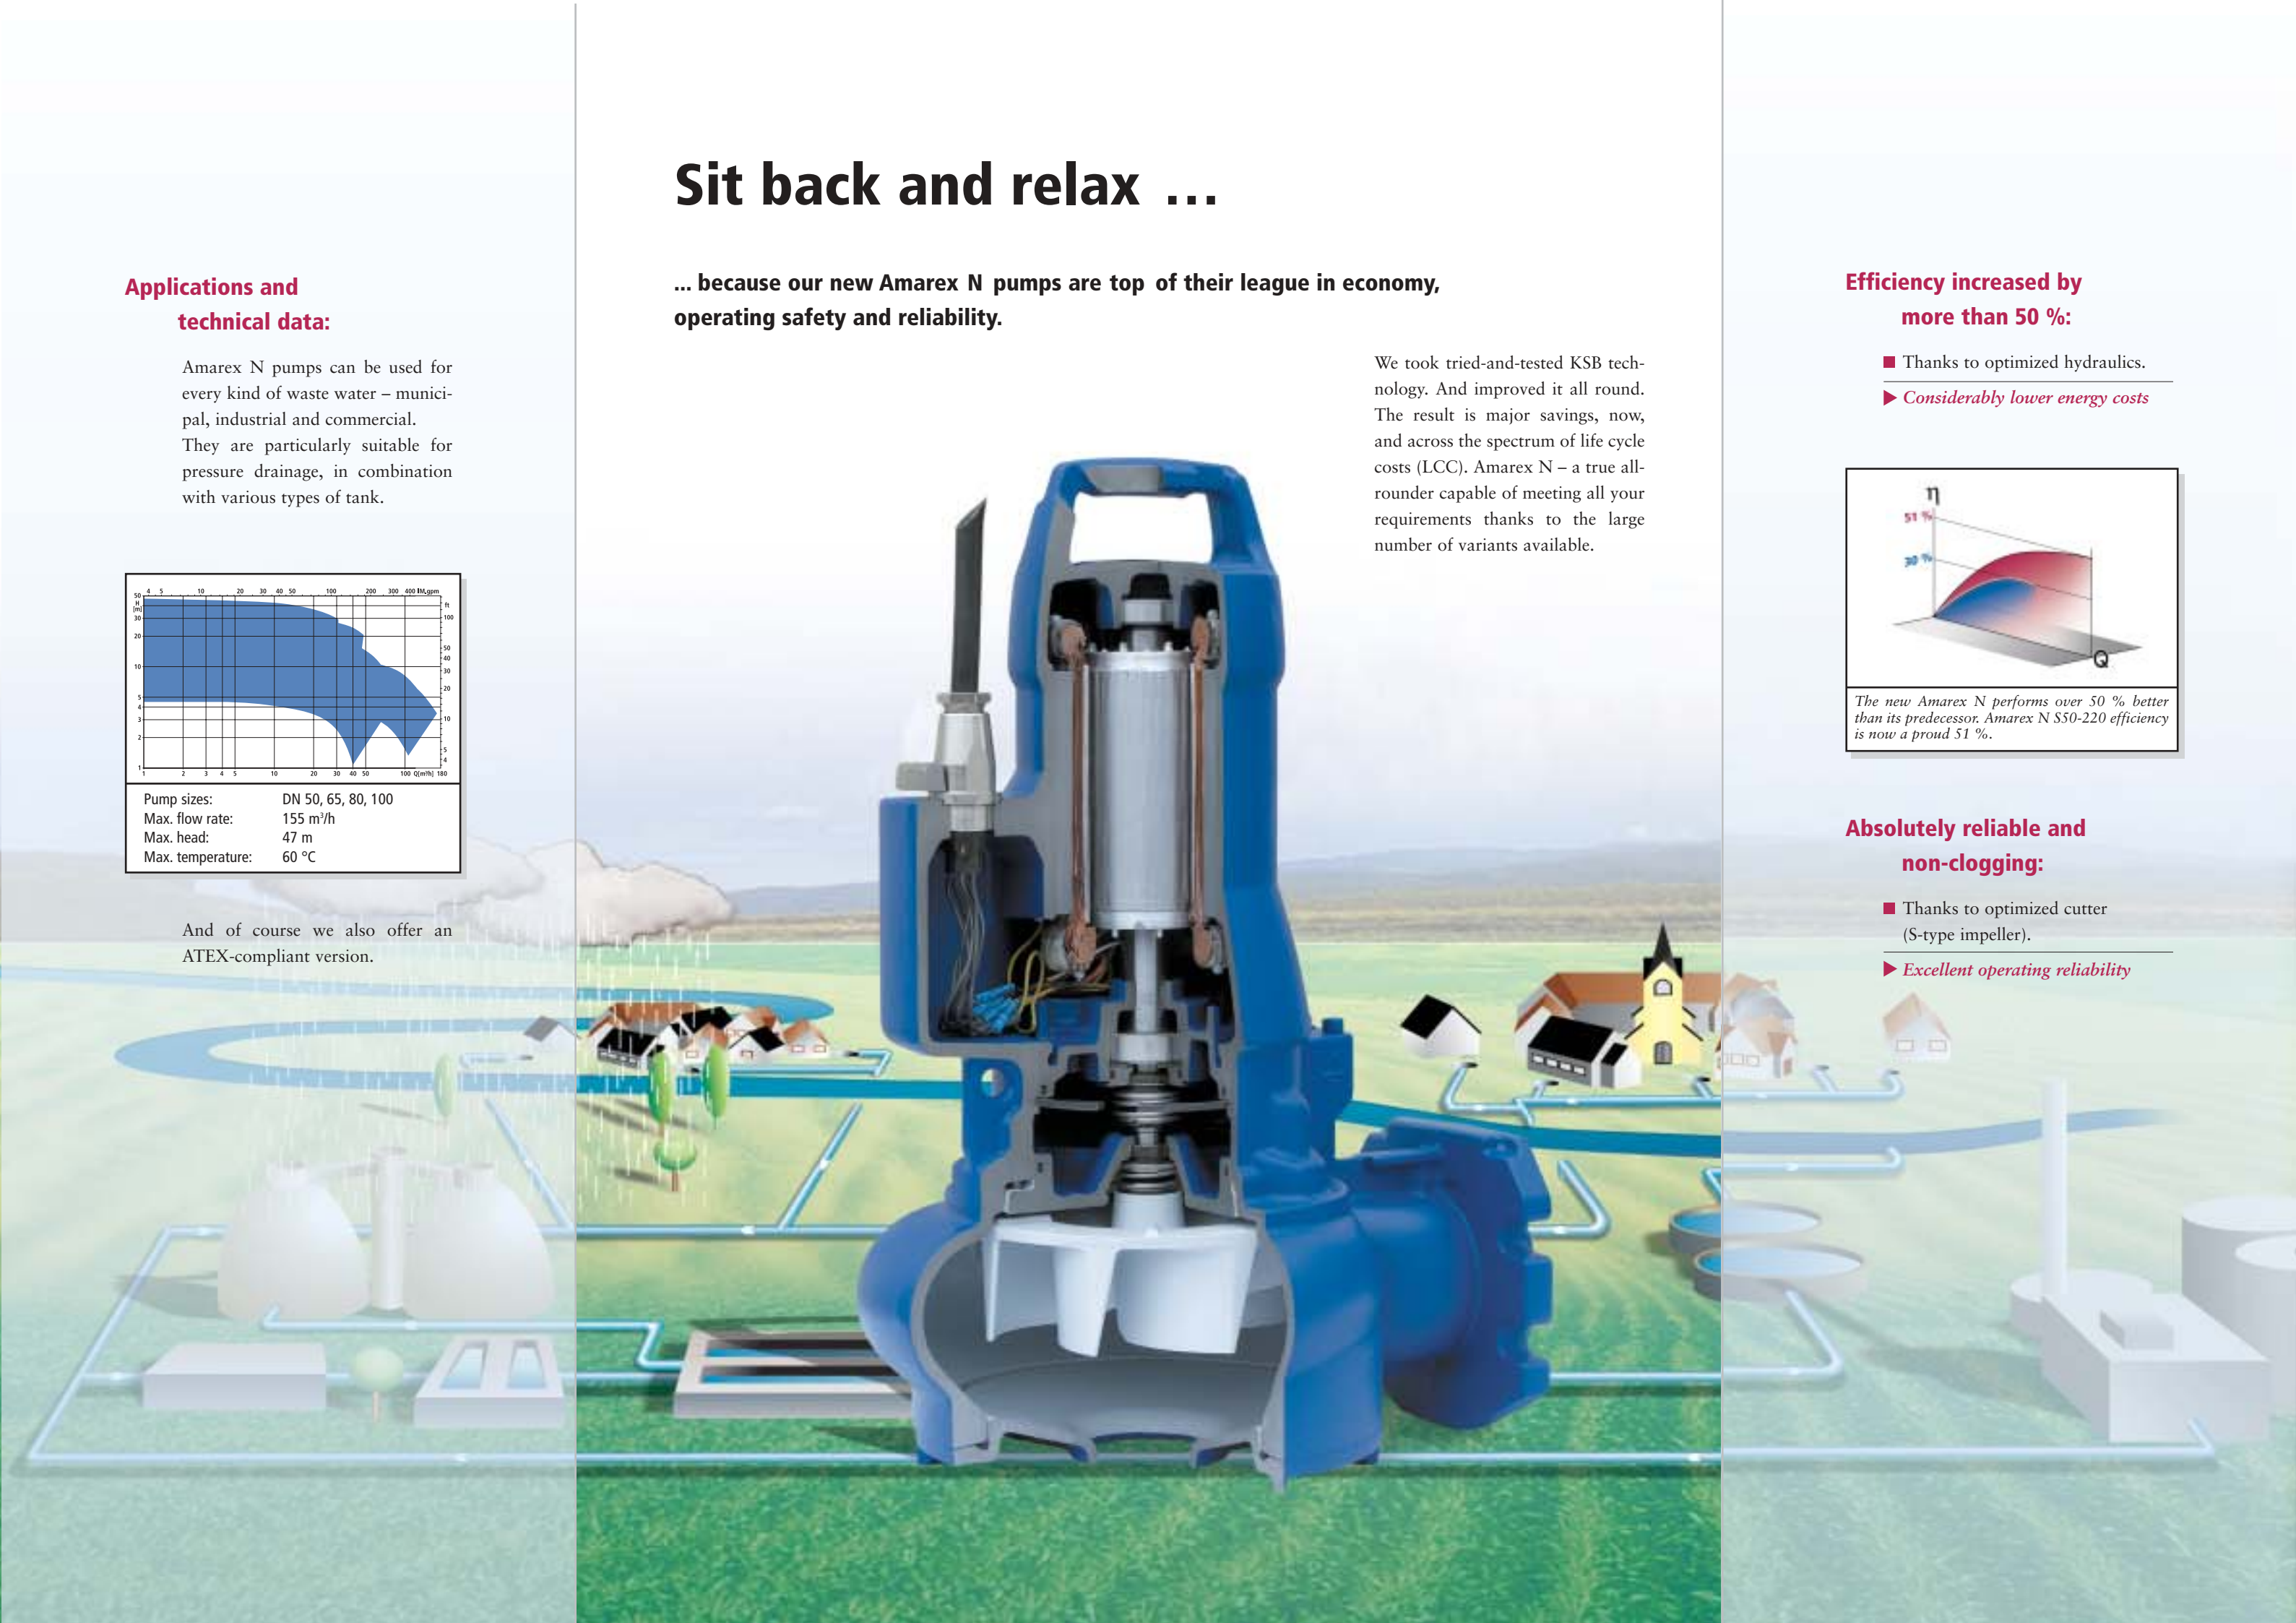

- Thanks to optimized hydraulics.
- ▶ *Considerably lower energy costs*

The new Amarex N performs over 50 % better than its predecessor. Amarex N S50-220 efficiency is now a proud 51 %.

## Absolutely reliable and non-clogging:

- Thanks to optimized cutter (S-type impeller).
- ▶ *Excellent operating reliability*

# Sit back and relax ...

... because our new Amarex N pumps are top of their league in economy, operating safety and reliability.

We took tried-and-tested KSB technology. And improved it all round. The result is major savings, now, and across the spectrum of life cycle costs (LCC). Amarex N – a true allrounder capable of meeting all your requirements thanks to the large number of variants available.

## Exactly matched to your requirements:

- Even the standard model can easily handle normal, slightly abrasive and slightly corrosive fluids.
- And we're happy to meet your special requests on cable quality, coatings and mechanical seals.

► *Extremely flexible*

## KSB Service is on call any time:

- 24 hours. 7 days a week. Non-stop. Round the clock.

► *Excellent availability*

## Minimum maintenance:

- A single set of wear part replacements for all pump sizes and variants.

► *Inventory costs minimized*

## No faulty installation after maintenance work:

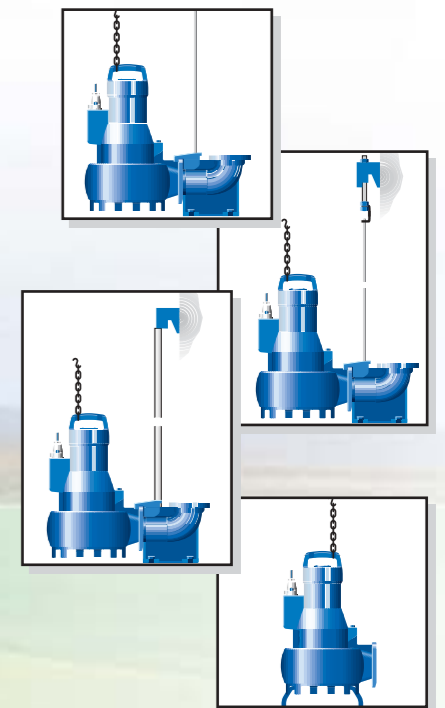

- Re-usable and polarized cable entry.
- KSB plug connection ensures correct installation.

► *Easy and quick installation*

## Installation and removal are child's play:

- Automatic, bolt-free connection for stationary models.
- Absolutely leakproof due to elastic sealing.

► *Service-friendly and easy to handle*

Available in 4 installation options: guide wire, hoop or rail, and transportable.

**We look forward to hearing from you.**
